

# TEEIFUKA USA

Teeifuka Foundation has an office in the United States of America

Teeifuka USA is established in 2009 on July 30 in Acworth, Georgia USA. Teeifuka USA is the third division of this foundation. Teeifuka was first founded in 2003 in the Netherlands, then in 2005 in Suriname and in July 2009 in the United States of America. Teeifuka tries within this triangle in the world together with the local population in the upper Suriname area to perform development work. Kenneth and Glenn Adipi are born and raised in the upper Suriname area and now live in the United States of America. Together with their wives and children they tried to do something good for the people in their region of birth. Winette Adipi-Pinas, and Patricia Adipi-Alfred support this initiative wholeheartedly and are part of the administration of Teeifuka USA. If you live in the United States of America and you want to do something for the people in the upper Suriname area, you can contact Teeifuka USA:
